Portfolio: <https://project-portfolio-phi-seven.vercel.app/>

PROFESSIONAL SUMMARY

BCA graduate and entry-level Full Stack Developer (MERN) skilled in JavaScript (ES6+) and TypeScript, with hands-on experience building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Built CineStream, a short-film OTT platform with multimedia CRUD workflows and REST APIs, and contributed to the architecture, documentation, and React frontend of a role-based Viva Management System. Eager to contribute to a growth-focused development team.

TECHNICAL SKILLS

- * **MERN Stack:** MongoDB, Express.js, React.js, Node.js
- * **Languages:** JavaScript (ES6+), TypeScript, Python (Basics)
- * **Front-End:** React.js, React Hooks, HTML5, CSS3, Responsive Web Design
- * **Back-End:** Node.js, Express.js, REST APIs, JWT Authentication
- * **Databases:** MongoDB, MySQL
- * **Tools & Platforms:** Git, GitHub, Vercel, Render

PROJECTS

Trip Advising Website

React.js, Node.js, MongoDB

- * Built a full-stack travel recommendation platform using React.js, Node.js, and MongoDB.
- * Designed responsive pages for destination search, travel tips, and personalized trip suggestions.
- * Implemented REST API integration for client-server data exchange using reusable React components.

Demo Link: <https://trippilot-peach.vercel.app/>

Digital Project Evaluation & Viva Management System

React, TypeScript, UML

- * Planned the system architecture for a full-stack web application digitizing the final-year project evaluation and viva lifecycle, as part of a college development team.
- * Defined module breakdowns for 4 user roles (Students, Guides, Viva Panels, Admins) across 5 core modules: project submission, mentorship requests, marks entry, viva scheduling, and result generation.
- * Authored the project abstract and feasibility reports, and designed UML diagrams documenting system workflows.
- * Collaborated with the team on the React frontend, aligning the UI with the defined module flows.

Assignment Submission Platform

React.js, JavaScript (ES6+), HTML5, CSS3

- * Built a React.js web platform that replaces manual assignment handling with digital student submissions.
- * Developed the assignment upload and submission interface, displaying assignment details and submission status.
- * Implemented form handling and validation with dynamic rendering, managing application state with React Hooks and ES6+ event handling in a responsive UI of reusable components.

Demo Link: <https://assignment-main-pearl.vercel.app/>

CineStream - Short Film OTT Platform

React.js, Node.js, Express.js, MongoDB

- * Built a full-stack short-film OTT platform on the MERN stack with user authentication and director/content uploads.
- * Developed category/genre browsing, search, and detailed short-film pages for content discovery.
- * Implemented multimedia CRUD workflows with video upload and streaming via REST APIs and MongoDB.

EDUCATION

Bachelor of Computer Applications (BCA)

Graduated: September 2026 | CGPA: 6.98

Dr. MGR University

TRAINING & CERTIFICATION

Full Stack Web Development (MERN Stack)

Duration: 6 Months

SLA Institute, Chennai

- * Comprehensive curriculum covering frontend (HTML, CSS, JavaScript, React.js, TypeScript) and backend (Node.js, Express.js, MongoDB, REST API) development.
- * Building multiple real-world full-stack MERN projects with hands-on coding practice and mentor-guided sessions.
- * Learning database integration with MongoDB, JWT authentication, and Vercel/Render deployment workflows.
